

Bust Out Of Your Money Box

Session 6 – Wealth For Life

Disclaimer

- Please note that you need to take full responsibility for your physical and emotional health during the sessions. The techniques that we are using are experimental and while they are usually very gentle and some people appear to have experienced excellent results, it is not possible to know in advance how an individual will respond. Tapping techniques may bring old memories and emotional responses to the surface and this can feel very powerful. Remember that you are not obliged to share details of an event or memory, although you may wish to and we will be able to work on anything that comes up, whether you share the detail or want to keep it to yourself. As with all practices, whether complementary or normal medical/psychological, results can never be guaranteed. You are not recommended to ignore any medical advice and your primary care giver is always your GP.
